

## AUTO WINGRID 1600

The *Auto WinGrid 1600* is a versatile automated saw for all window grill styles, spacer bars and screen frames. The machine reads from pre-programmed, optimized cutting lists and performs cuts, notches, and punches with material being advanced by an automated pusher and can be used as an automated length stop.

No more set-up delays, tool changes, or the error prone, dog-eared paper cutting lists!

### Technical Specifications:
